SCHOOL REPORT.

In presenting the annual report of the work and progress of the schools of Epsom for the past year, we find but little to add to what has been said by our predecessors.

The schools have been very much interrupted by sickness; measles, whooping-cough and scarlet-fever prevailing to such an extent that only one of our schools could keep its regular course.

Four of the schools had the same teacher each term, one had two different teachers, while the other changed each term.

We feel ourselves fortunate in having been able to secure so efficient and faithful teachers, those who from their experience, their love for the work, combined with their natural abilities, have been able to impart to those under their care something of that enthusiasm and interest so necessary to make a term of school a success.

The placing of a student's encyclopedia in each of our schools has awakened an interest in the study of history, especially in those in which were placed the questions on the blackboard, the answers to which could be found in those books.

We are pleased to note the interest in our schools taken by the parents generally, and the effort made by many of them to have their children constantly and promptly at school, thus aiding the teachers and school board in their efforts to have profitable schools.

Repairs have been made on the Center and New Rye school buildings, both of which have been painted on the inside, and the former shingled, while minor repairs have been made upon several others. There is need of something being done at the North Road school house soon, both inside and outside, and the house at Short Falls would be greatly improved by a coat of paint on the inside, and the plastering repaired.

Your attention is respectfully invited to the statistical report, and also that of the treasurer.

Respectfully submitted,

JOHN H. DOLBEER,
D. G. CHESLEY,
M. JOSIE RAND,

School Board.
